

ABOUT THE AUTHORS

- James Osten** **Principal, Global Insight, Natural Gas Services.** James A. Osten is responsible for Global Insight’s outlook for the natural gas industry, a comprehensive analysis of prices, basis, risks, bandwidths, scenarios and optionality. He has prepared many industry studies in the areas of market assessment, price analysis, expansion of infrastructure and valuation of assets. In over 20 years with Global Insight and its predecessor companies, Mr. Osten has also had extensive international experience including the development of a new natural gas regulatory system for Venezuela, energy industry analysis for Mercosur countries and the feasibility of LNG investments. Mr. Osten has developed systems for analysing spot energy markets including risk assessments. Related studies include preparation of testimony for pipeline expansions, and detailed analysis of natural gas costs for major electric utilities. Mr. Osten received his economic degrees from the University of Wisconsin and Boston College.
- Mary Novak** **Managing Director, Global Insight, Energy Services.** Ms. Novak manages Global Insight’s consulting engagements with the energy industry, government organizations, and trade associations. In her 20-year tenure with Global Insight and its predecessor companies, Ms. Novak has held a variety of positions with the Energy Group. Ms. Novak joined the company as a senior economist with responsibility for natural gas analysis. Subsequently, Ms. Novak held the position of Director of the U.S. Energy Service. As a Principal, Ms. Novak directed the company's analysis in the environmental area, coordinating the many Services and models used in this emerging discipline. Ms. Novak received her economic degrees from the Catholic University of America and the University of Maryland.
- Dennis Eklof** **Executive Managing Director, Global Insight Global Energy Group.** Dennis Eklof is responsible for Global Insight’s global energy consulting and analysis services. Mr. Eklof has over 30 years of energy and petrochemical operating and consulting experience with Exxon, Data Resources, CERA, and Global Insight. His experience and expertise ranges from upstream operations to retail marketing of gas, oil and electric power. He has most recently been engaged in research on Middle East gas, global LNG economics, and oil industry geopolitics. Mr. Eklof received his baccalaureate and PhD degrees from Johns Hopkins University.
- Kemm Farney** **Principal, Global Insight, Electric Power Service.** Mr. Farney has 25 years experience as a practicing economist working in regulated and recently deregulated industries. Dr. Farney previously served as Chief Economist at a large mid-western utility. His areas of expertise include econometric and statistical analysis, cost/benefit and feasibility analysis, strategic planning and competitive benchmarking. He received his doctorate from Florida State University; his dissertation was on nuclear power plant construction cost overruns.
- Frantz Price** **Managing Director, Global Insight, Industry Practices.** Mr. Price has over 25 years of experience in cost analysis and forecasting, as well as strategic planning. His current responsibilities include the overall management of a broad range of industrial forecasting and consulting services. Mr. Price is the company’s petrochemical analyst and a regular contributor to the macroeconomic forecast. Mr. Price received his degrees from the City University of New York and the Pratt Institute.
- Tom Runiewicz** **Principal, Global Insight, Steel Service.** Mr. Runiewicz has over 20 years experience in economic forecasting. He is responsible for analyzing the iron, steel, and primary metals industries. In addition, Mr. Runiewicz has analytical expertise in the paper, lumber, and construction industries. Mr. Runiewicz received his degrees from The Pennsylvania State University and Wilkes College.
- John Dean** **Senior Associate, North American Coal.** Mr. Dean has 25 years experience in coal, coal transportation and power analysis. He has conducted site-specific coal price forecasts for over 100 utility and industrial companies, written extensively on coal contracting issues, and directed policy analyses on such issues as acid rain and other environmental legislation coal market shifts, and the impact of tax changes on the coal industry. Mr. Dean formerly directed DRI’s Coal and Fuel Procurement Services.

Demand Destruction: The Impact of Rising Natural Gas Prices 2003–25

ABOUT GLOBAL INSIGHT, INC.
